Proven mobile computing solutions for bulk and palletised distribution

Total Visibility Manager

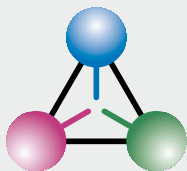

BUSINESS BENEFITS

- Have total visibility from 'receipt' through to 'order fulfilment'.
- Flexible modular approach to provide a fit for purpose solution.
- Always know accurately where every consignment is.
- Make all your logistic resources work smarter.
- Ensure your customer has confidence in your ability to control costs and improve productivity.

FEATURES

- Proven inbound, cross dock, consignment and asset tracking to help create your distribution plans.
- Barcode and product by quantity receipting and dispatch.
- Sortation, put away, pick to lane and dispatch functions.
- Full end to end tracking using mobile computing.
- Management reports to have live, historic and trend analysis.
